

Task 7.2: Education and training as an essential part of dissemination and knowledge management within CONCERT

(Lead: NRIRR; Partners: SCK•CEN, UniPv, NCRRP, SU, MedUni Vienna, VUJE, CEA, MTA-EK, STUK; LTPs: NMBU, CREAL, FZ-Jülich)

- In collaboration with WP 2 (development of SRAs) and WP 3 (Joint priority setting) E&T will be promoted as an integral part of all funded RTD research projects.

Task 7.2: Education and training as an essential part of dissemination and knowledge management within CONCERT

- E&T within the main framework of CONCERT
 - CONCERT should offer E&T sections at European scientific meetings. The topic should be the achievements of recent EURATOM calls, and their contribution to RP issues.
 - Support to European MSc course on radiation biology and radiation protection

- E&T within the new R&D calls/topics of CONCERT
 - E&T plans should be a selection criteria in CONCERT calls
 - PhD thesis work; where possible students from new member states shall be encouraged to qualify for PhD Programmes.
 - MSc project work; project partners will be encouraged to liaise with universities offering MSc programmes in scientific disciplines required for radiation protection research to provide supervised projects.
 - Offering short courses (1-3 weeks) or teaching seminars on the new science/technology being used or developed (in collaboration with Task 7.3)
 - CONCERT supported projects should organize E&T courses at the annual CONCERT meeting
