

# NERIS Platform

## Education and Training

*Wolfgang Raskob on behalf of the MB of NERIS*

*Wolfgang.raskob@kit.edu*

- by 2015, the self-sustaining association for development of the joint European approach in responding to and recovering from nuclear and radiological emergencies exists, and
- by 2020, all European organisations being members of NERIS are sharing common views and common approaches and developing and using compatible technology and methods for consequence management of the emergencies

- To achieve the above objectives, the Platform will:
- Ensure a supranational training programme by stimulating continuation of the training courses developed during the EURATOM 6<sup>th</sup> Framework Programme, launching of new training courses and workshops/exercises according to the needs of all the various actors.
- Organise workshops on topics of interest
  - So far workshop on ICRP-103 recommendations

- Training as part of the PREPARE project
  - Training Course on Preparedness and Response for Nuclear and Radiological Emergencies (March 17 - 21, 2014, SCK•CEN, Mol, Belgium)
  - Training Course on Late Phase Nuclear Accident Preparedness and Management (September 16-18, 2014, CEPN, Fontenay-aux Roses, France)
- Ideas as part of the revised SRA
  - Education and Training research and development specific training modules for emergencies, including intercomparisons
  - Use of tools in the best possible way
