

Third International MELODI Workshop

Program

Time	November 2, 2011	November 3, 2011	November 4, 2011
08:30-08:45		Lecture: what radioprotection can request to radiobiology	
08:45-09:00			
09:00-09:15			
09:15-09:30			Target of low dose radiation 1
09:30-09:45		Experimental studies 1	
09:45-10:00			
10:00-10:15			
10:15-10:30			Target of low dose radiation 2
10:30-10:45		Experimental studies 2	
10:45-11:00			
11:00-11:15		Poster session/Coffee break	
11:15-11:30			Poster session/Coffee break
11:30-11:45			
11:45-12:00			
12:00-12:15	Registration	Experimental studies 3	Target of low dose radiation 3
12:15-12:30			
12:30-12:45			
12:45-13:00		General discussion	General discussion
13:00-13:15			
13:15-13:30		Lunch	Lunch
13:30-13:45	Welcome address		
13:45-14:00			
14:00-14:15			
14:15-14:30		Biological Mechanisms 1	DoREMi state of art
14:30-14:45			
14:45-15:00			
15:00-15:15	MELODI Strategic Research Agenda	Biological Mechanisms 2	Workshop summary and closing
15:15-15:30			
15:30-15:45			
15:45-16:00	Coffee break		
16:00-16:15		Poster session/Coffee break	
16:15-16:30			
16:30-16:45	Epidemiology 1		
16:45-17:00		Biological Mechanisms 3	
17:00-17:15			
17:15-17:30			
17:30-17:45	Epidemiology 2	General discussion	
17:45-18:00			
18:00-18:15			
18:15-18:30	General discussion		

Wednesday, November 2

Opening session:

MELODI Strategic Research Agenda

Dietrich Averbeck

Session on Epidemiology of ionizing radiation:

1. DDREF: lights and shadows
2. Childhood leukemia and ionizing radiation

Dale Preston
Richard Wakeford

Thursday, November 3

The point of view of radioprotectionists:

What radioprotection can request to radiobiology

Patrik Smeesters

Session on Experimental models:

1. Radiation effects on cancer- and non-cancer stem cells
2. Radiation induced cardiovascular disease
3. Individual radiation susceptibility and cancer risk

Michele Martin
Fiona Stewart
Mike Atkinson

Session on Biological mechanisms of radiation action:

1. Age and gender relevance for the evaluation of radiation risk
2. Inducible response: low versus high doses
3. Oxidative stress and inflammatory response: what role?

Wolfgang-Ulrich Müller
Markus Löbrich
Chrysostomos Chatgilialoglu

Friday, November 4

Session on Targets of low dose radiation: physical and biological issues:

1. Early effects relevant for biological damage
2. Dose rate effects: spatial and temporal damage distribution
3. DNA damage response, senescence and cancer

Andrea Ottolenghi
Peter O'Neill
George Garinis

DoReMi state of art:

The EU NoE DoReMi: where we are

Sisko Salomaa

Workshop summary:

Rapporteurs:

Kevin Prise, Laure Sabatier

Poster sessions are foreseen during the breaks

Titles to be confirmed
