

# DoReMi TRA workshop

Sitges 29 April, 2015

Sisko Salomaa  
DoReMi Coordinator

# Final project period

- July 2014 – December 2015 (18 months)
- Workshops mentioned in DoW
  - M2.5 Consensus meeting for position papers on consequences on risk assessment and radiation protection (due by June 2015)
  - Task 2.3.7 Workshop on implication of science to low dose risk assessment and radiation protection (Sept.-Dec. 2015)
- Promoting scientific articles and dissemination of results
- Stakeholder communication
- Good practises for sustainable integration

# Evaluating the success of DoReMi

- **Joint Programme for Integration**
  - MELODI Association established and operational
  - Inclusion of 24 new partners in DoReMi
- **Joint Programme for Research**
  - Three main areas: shape of dose response for cancer, individual sensitivity and non-cancer effects
  - TRA and TRA Statements
  - 3 competitive and 3 internal calls
  - Expansion of programme portfolio (from 22 to 49 tasks, a total of 27 new tasks/sub-tasks)
  - Supporting the development of MELODI SRA
- **Joint Programme for Spreading of Excellence**
  - Supporting 6-9 training courses each year
  - Dissemination: workshops, web site, publications

# Legacy of DoReMi

- What should be passed on to OPERRA and H2020/EJP
  - Good practises, lessons learned
  - Science as well as coordination and management aspects
- Assessing the feasibility studies and recommending for future research
- Experiences on organising calls
- Infrastructures and databases
- Arrangements for Education and Training
- Website content
- **Transition from TRA to SRA**
- **Input for MELODI SRA statement -> CONCERT**
