- Dietrich Averbeck (IRSN/CEA, FR)
- Sarah Baatout (SCK-CEN, BE)
- Elisabeths Ainsbury (PHE, UK)
- Jean-René Jourdain (IRSN, FR) (April 30)
- Laure Sabatier (CEA,FR)
- Andrea Ottolenghi (April 30) and Vere Smyth (UniPavia, IT)
- Peter Jacob (HMGE, DE)
- Markus Eidemüller (HMGU, DE)
- EAB: Richard Wakeford (UK)
- Elisabeth Cardis (CREAL, ES)
- Ulrike Kulka (BfS,DE)
- Serge Candéas (CEA, FR) (April 30)

Introduction

- When **DoReMi** started in 2010, the **Annex 1** (first version 6 November 2009, last updated version 16 July 2014) outlined the main objectives of the NoE **DoReMi WPs** in some detail following the recommendation of HLEG.
- Since then, **WP2** (Tasks 2.2 and 2.3) was engaged in establishing the transitional research Agenda (**TRA**) for **DoReMi** (short term) and the **SRA** for **MELODI** (long term).
- Several founding meetings were held (for example, Saint- Feliu de Guixols, Barcelona, Spain May 2010; Vitri sul Mare, Italy, Oct 2012) to specify the DoReMi NoE methodology for the TRA setting.

Program committee

Program committee according to the DoReMi GA in Munich , July 2014:

- Dietrich Averbeck, IRSN/CEA; Elisabeth Cardis, CREAL; Ulrike Kulka, BfS, Sarah Baatout, SCK-CEN, Sisko Salomaa, STUK; Peter Jacob, HMGU

- **Purpose of the meeting**

The meeting on position papers on consequences on risk assessment and radiation protection is related to WP2 Task 2.3.7 and the Milestone 2.5 (due by month 66 (June 2015)).

Aim of the meeting (1)

The DoReMi consensus meeting in Sitges (29-30 April Barcelona, Spain) is organized in order

- to get an overview of the work accomplished so far on the basis of published DoReMi papers and foreseen papers, their main messages and outcomes, the answers provided by DoReMi and questions, and the research needs and priorities remaining for future research.
- to help structuring and defining the future contents of DoReMi position and policy papers. The **position papers** are expected to summarize the main outcomes of the DoReMi WPs work (education and training, infrastructures, cancer, individual sensitivity and non cancer).

Aim of the meeting (2)

- to facilitate the management of DoReMI papers (including forthcoming ones) (WP2 task 2.3) and the preparation of the DoReMI position papers as well as of a final (general) policy paper (WP1-7) through the highlighting of studies in epidemiology, biomarkers and biodosimetry, non cancer effects, immunology, cancer risk assessment, modeling and systems biology in the European and international context and to DoReMI achievements (see contribution from EAB, R. Wakeford).
- to identify **issues of discussion**, position and policy papers what for?
- to identify **DoReMI results and** actual DoReMI paper outcomes
- to identify **Future research needs and priorities**, strategies to be underlined in the context of MELODI, OPERRA and CONCERT.

Program of the meeting (1)

- **First day:** DoReMi project outcomes and Links to the 9 key questions (and related subquestions) of the TRA (and TRA statements) and the DoReMi WP objectives and results obtained in WP 5,6,7 and 3,4
- **Second day:** Position/policy papers on the way forward (epidemiology, biomarkers and biodosimetry) non-cancer, immunology, Epidemiology and radiobiology for cancer risks, modeling and systems biology, and on DoReMi achievements in the European context as well as messages for position and policy papers.

Are their propositions for changes of the program?

Program (2)

DoReMi WP2 TRA position meeting
