

RPW

Radiation Protection Week

Oxford 2016

19 - 23 September

For the first time, RPW2016 will bring together complementary strands of radiation protection research, with the established European platforms [MELODI](#), [EURADOS](#), [NERIS](#) and [ALLIANCE](#) as co-organisers, along with other relevant areas. Building on and extending the highly successful MELODI workshops and in the light of greater integration of European research on Radiation Protection demonstrated by the [CONCERT](#) European Joint Programme, you are invited to participate in this first Radiation Protection Week. RPW2016 will be held in Oxford, UK; the meeting will be held in the Mathematical Institute located in the recently re-developed Radcliffe Observatory Quarter of Oxford University; accommodation will be available in nearby St Anne's College.

Join us to discuss the latest in Radiation Protection Research, bringing together:

- low dose and dose-rate radiation risk research
- radiation dosimetry
- radiation emergency preparedness and response
- radioecology

Further information and registration website available soon
